

Titanic homework project

Build a model of the Titanic using:

- Lego
- Recycling materials
- Playdough/plasticine
- Construction materials

Take a photo or bring your model to school.

Create a picture of the Titanic using:

- Paint
- Chalks
- Pencils
- Collage

You could include the sea and the iceberg.

Design and make a lifeboat that can float.

Test it in a sink, bath or washing-up bowl and see how many coins or small toys it can hold before it sinks.

Find out what happens to ice when it is placed in water.

- Does it float or sink?
- How long does it take to melt?
- Why do ships need to watch out for icebergs?

Draw or write about what you discovered.

Create a fact file including:

- When the Titanic sailed
- Where it travelled from and to
- How big it was
- Interesting facts you have found

You could include drawings and labels.

Look at examples of food served on the Titanic and design your own menu.

You could even make one of the foods with an adult and take a photograph.

This half term we will be learning about the famous ship, **The Titanic**. We would love you to explore this further at home and share your learning with the class.

Choose **1 or more activities**. You can present your work in any way you like. Be as creative as possible! Bring it in to share or send on Dojo at any point this half term.
